

## Alice oakleaf hydrangea

**Plant Botanical Name:**

*Hydrangea quercifolia*

**Plant Sub Species or Variety:**

'Alice'

**USBG Plant Location:**

Bartholdi Park

**Sunlight:**

Full sun to part shade

**Plant Soil Type:**

Does best in well-drained, organically rich garden soil

**Plant Moisture Requirements:**

Performs best with consistently moist soil, although once established, it can take dry soil

Noteworthy oakleaf cultivar due to large white blooms that fade to pink and foliage that turns bronze, maroon and purple in the fall.
