

Kids are Welcome at the U.S. Botanic Garden

We invite you to explore a world of plants year round. Let us nurture your curiosity, creativity and discovery by helping you find fun things you can do on Botanic Garden or in your very own home.

Check out our upcoming programs to see if there's something special happening during your visit.

Tips for Visiting with Kids

While at the Conservatory, enjoy our living classroom with your family!

- Our Children's Garden gives kids a chance to get hands-on in a courtyard garden where they can gently explore plants in bloom and play with about plants. The Children's Garden is seasonal, open Spring-Fall.
- Take a trek through the wilds of the U.S. Botanic Garden to discover the amazing world of plants. Embark on an expedition through the Conservatory with observations and completing activities using our resources below.
- To continue your plant explorations, check out these At-Home Activities.

Onsite Exploration Resources

Parts of a Plant

Using this passport, students explore our Conservatory to find seven different plants and learn about plant parts and function. This resource is great for our younger visitors. Allow 30 to 45 minutes for this activity. Find the passports at the front information desk. Passports are not available during the Season's Greenings holiday show. Look for the holiday plant hunt instead.

Junior Botanist

Using the backpack and adventure sheets, students work in teams to explore each room of our Conservatory. This free resource is designed for third through sixth grade students. Junior Botanist Adventure Kits are available for checkout at the front information desk. Backpacks are not available during the Season's Greenings holiday show. Look for the holiday plant hunt instead.

Plants and Food

Using this passport, students explore our Conservatory to learn where many of our foods come from and discover which part of the plants we eat. This is a great resource for our younger visitors. Allow 30 - 45 minutes for this activity. Find the passports at the front information desk. Passports are not available during the Season's Greenings holiday show. Look for the holiday plant hunt instead.

Regional Garden Field Journal

Using this field journal, students explore our native plant collection in our outdoor Regional Garden. This journal encourages students to learn about native plants and observe plants in different seasons. Allow 30 to 45 minutes for this activity. Find the field journals at the front information desk.
