

Orange spice poinsettia

Plant Botanical Name:

Euphorbia pulcherrima

Plant Sub Species or Variety:

'Orange Spice'

The 'Orange Spice' poinsettia was first introduced into successful trials by California's Ecke Ranch about 10 years ago. The strikingly bright, true orange contrast to more traditional varieties. While considered a novelty color for the winter holidays, 'Orange Spice' has finally succeeded in extending the market as its intense orange color has seen the plant winning customers as early as Halloween!
