

Gardens Across America

May 24 - October 1, 2019 | USBG Campus

Featuring vignettes from a selection of gardens across the country, this exhibit spotlights the diversity and beauty of the more than 600 public gardens in the United States. From rare and endangered plants to historic estates and modern oases, the U.S. Botanic Garden showcases the collections and stories of 20 different gardens. These gardens reflect their local communities and the amazing diversity found in the plant kingdom. The displays include signature plants and visual elements that provide visitors with a deeper understanding of the gardens' plants, styles, origins, regional characteristics, and missions.

Featured in the exhibit are:
