Search the United States Botanic Garden Living Collections Database

Search the USBG Plant Collection

Click here to enter the USBG Living Collections Database Search site >>

Search Tips:
Enter one or more words from the scientific or common name (excluding authorities or cultivar indicators eg. cv).

Entries can be either upper case or lower case.
Either * or ] can be used as wildcard characters at the end of any search values. For example to search for all values starting with Mag, enter:

`mag*` or `mag]`

Multiple search criteria should be separated by a comma.
For example to lookup only *Clivia minata*, enter:

*Clivia minata*

To look up both *Clivia minata* and *Camellia japonica*, enter:

*Clivia minata*, *camellia japonica*.
