Search Tips:
Enter one or more words from the scientific or common name (excluding authorities or cultivar indicators eg. cv).

Entries can be either upper case or lower case.
Either * or ] can be used as wildcard characters at the end of any search values. For example to search for all values starting with Mag, enter

```
    mag* or mag]
```

Multiple search criteria should be separated by a comma.

For example to lookup only *Clivia minata*, enter:

```
    Clivia minata
```

To look up both *Clivia minata* and *Camellia japonica*, enter:

```
    Clivia minata, camellia japonica.
```
