Search the United States Botanic Garden Living Collections Database

Search the USBG Plant Collection

Click here to enter the USBG Living Collections Database Search site >>

Search Tips:
Enter one or more words from the scientific or common name (excluding authorities or cultivar indicators eg. cv).
Entries can be either upper case or lower case.
Either * or ] can be used as wildcard characters at the end of any search values. For example to search for all values starting with Mag, enter

mag* or mag]

Multiple search criteria should be separated by a comma.
For example to lookup only Clivia minata, enter:

Clivia minata

To look up both Clivia minata and Camellia japonica, enter:

Clivia minata, camellia japonica.
