

Fringe flower

Plant Botanical Name:

Loropetalum chinense

Plant Sub Species or Variety:

'Red Form'

USBG Plant Location:

Bartholdi Park

Sunlight:

Sun to part shade

Plant Moisture Requirements:

Medium

This red-flowered evergreen shrub is a wonderful garden addition to a sunny spot in the border or as an accent plant, and is hardy to Zone 7. Growing up to heavy pruning. The leaves emerge as darker burgundy and green, and it blooms profusely in the spring and then sporadically.
