GENERAL TIPS

- The starred locations on the map indicate the locations your group *must* visit.
- The page numbers correspond to activities in the Botanist's Journal that should be completed in that space.
- If students finish early, they should work on p.5 (leaf sketching) or p.6 (Wonders).
- An answer key with additional tips for the activities is attached.
- You must remain with your students at all times.

tt Rest Rooms, C Water Fountain, ? Information, tt Elevator 6, Accessible Route, A Automated External Defibrillator (AED)

- Students may work in pairs within the group.
- Remind students to WALK and to NOT TOUCH plants.
